### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

In claim 17, line 1 "claim 16" was changed to --claim 13--.

### *Reasons for Allowance*

2. The following is an examiner's statement of reasons for allowance:

Claims 1-4, 6-15 and 17-23 are allowed.

Regarding claims 1, 7, 13 and 20, the prior art Specification of the Bluetooth System, Version 1.1 of **Marquess et al.** fails to teach an inquired device performing a page scan while performing said inquiry scan. **Marquess et al.** teaches an inquired device performing page scan after performing inquiry scan. **Marquess et al.**'s device tries to establish connection with one scanned device either after responding to an inquiry or after responding to a page from an inquiring device whereas claimed wireless device tries to establish connection with multiple scanned devices at the same time. Therefore, it is not obvious to modify **Marquess et al.** by any other teaching to teach the claimed **performing a page scan while performing said inquiry scan**. **Marquess et al.** does not need to perform both page scan and inquiry scan at the same time.
